

● **GIVE YOUR** baby an eco start in life with an ABACA organic cot mattress. Made entirely from organic and pure materials the cot mattress provides a safe and comfortable haven for your baby to sleep in.

By choosing organic bedding you will significantly reduce exposure to possibly harmful substances found in conventional mattresses.

ABACA design and make the only certified organic mattresses in the UK approved by the Soil Association. Made with the purest and highest quality organic materials they have produced a baby range that provides the healthiest start to life.

They're made with a sturdy core of coconut fibres wrapped in natural latex with a deep layer of wool and finished with a cotton cover. The combination of wool and cotton means no fireproofing chemicals are used in the production process, making it the perfect mattress for your baby's first bed.

Available in two sizes — 60 x 120 cm at £135 or 70 x 140 cm at £145 — from [www.abacaorganic.co.uk](http://www.abacaorganic.co.uk) or by phoning 01269 598491.
